Florida Citrus Advanced Technology Program

QUARTERLY & FINAL REPORTS: Control of Citrus Greening, Canker & Emerging Diseases of Citrus

Instructions Complete the fields based on your project specs. When finished, save the form to your local disk using a unique name. Then, go to **http://research.fcprac.com**, and log in with your user name and password using Researcher Login in the lower left. Find this project title and click on **Submit a Report**. Update your profile information if needed, then upload this report as directed.

2009-2010 REPORT	CATEGORY (drop-down)	TODAY'S DATE (m/d/yr)
(●) *Quarterly Report* ( ) *Annual Report* ( ) *Final*	Psyllid	7/9/09

WHAT IS THE "HEADLINE" FOR THIS REPORT (e.g. a one-sentence "newspaper headline" describing what you accomplished)

Trap improvement project initiated

TITLE and CONTACT INFORMATION

Proposal Title An effective trap for Asian citrus psyllid that can be used to monitor groves and plants for sale

Principal Investigator Russell F. Mizell, III	*PI Last Name* Mizell
Email rfmizell@ufl.edu	*FDACS Contract Number* 90
Phone 850-875-7156	*Project Duration (years)* 1 *Year of Project* 1
Organization NFREC-Quincy, Univ. of Florida	*Total Direct Funds (current year)* 100,000

REPORT UPDATE (650 words; provide details about your headline)

This proposal is new and the funding allocated to the subcontractors has been delayed within the institution. The cooperators have spent the time getting the research organized, developing trap prototypes, identifying locations for conducting field work and in depth discussions as to how to proceed. We are preparing to begin the field work very soon.
